▣ Aesthetic transformation:

- New materials
- New FUSION operating panel
- New IMPULSE pushbutton
- New lighting systems

▣ Extensive range of finishes available for operating panels, walls, flooring and ceilings

▣ Use of 100% recyclable material: **minimum environmental impact**

▣ Advantages for users: less noise inside the car, more space and interaction thanks to the LCD and TFT display

▣ With MP CarDesigner design your car wherever and whenever you want

Just imagine your perfect car and we'll do the rest

MP CARrevolution

Car design and building design a perfect fit

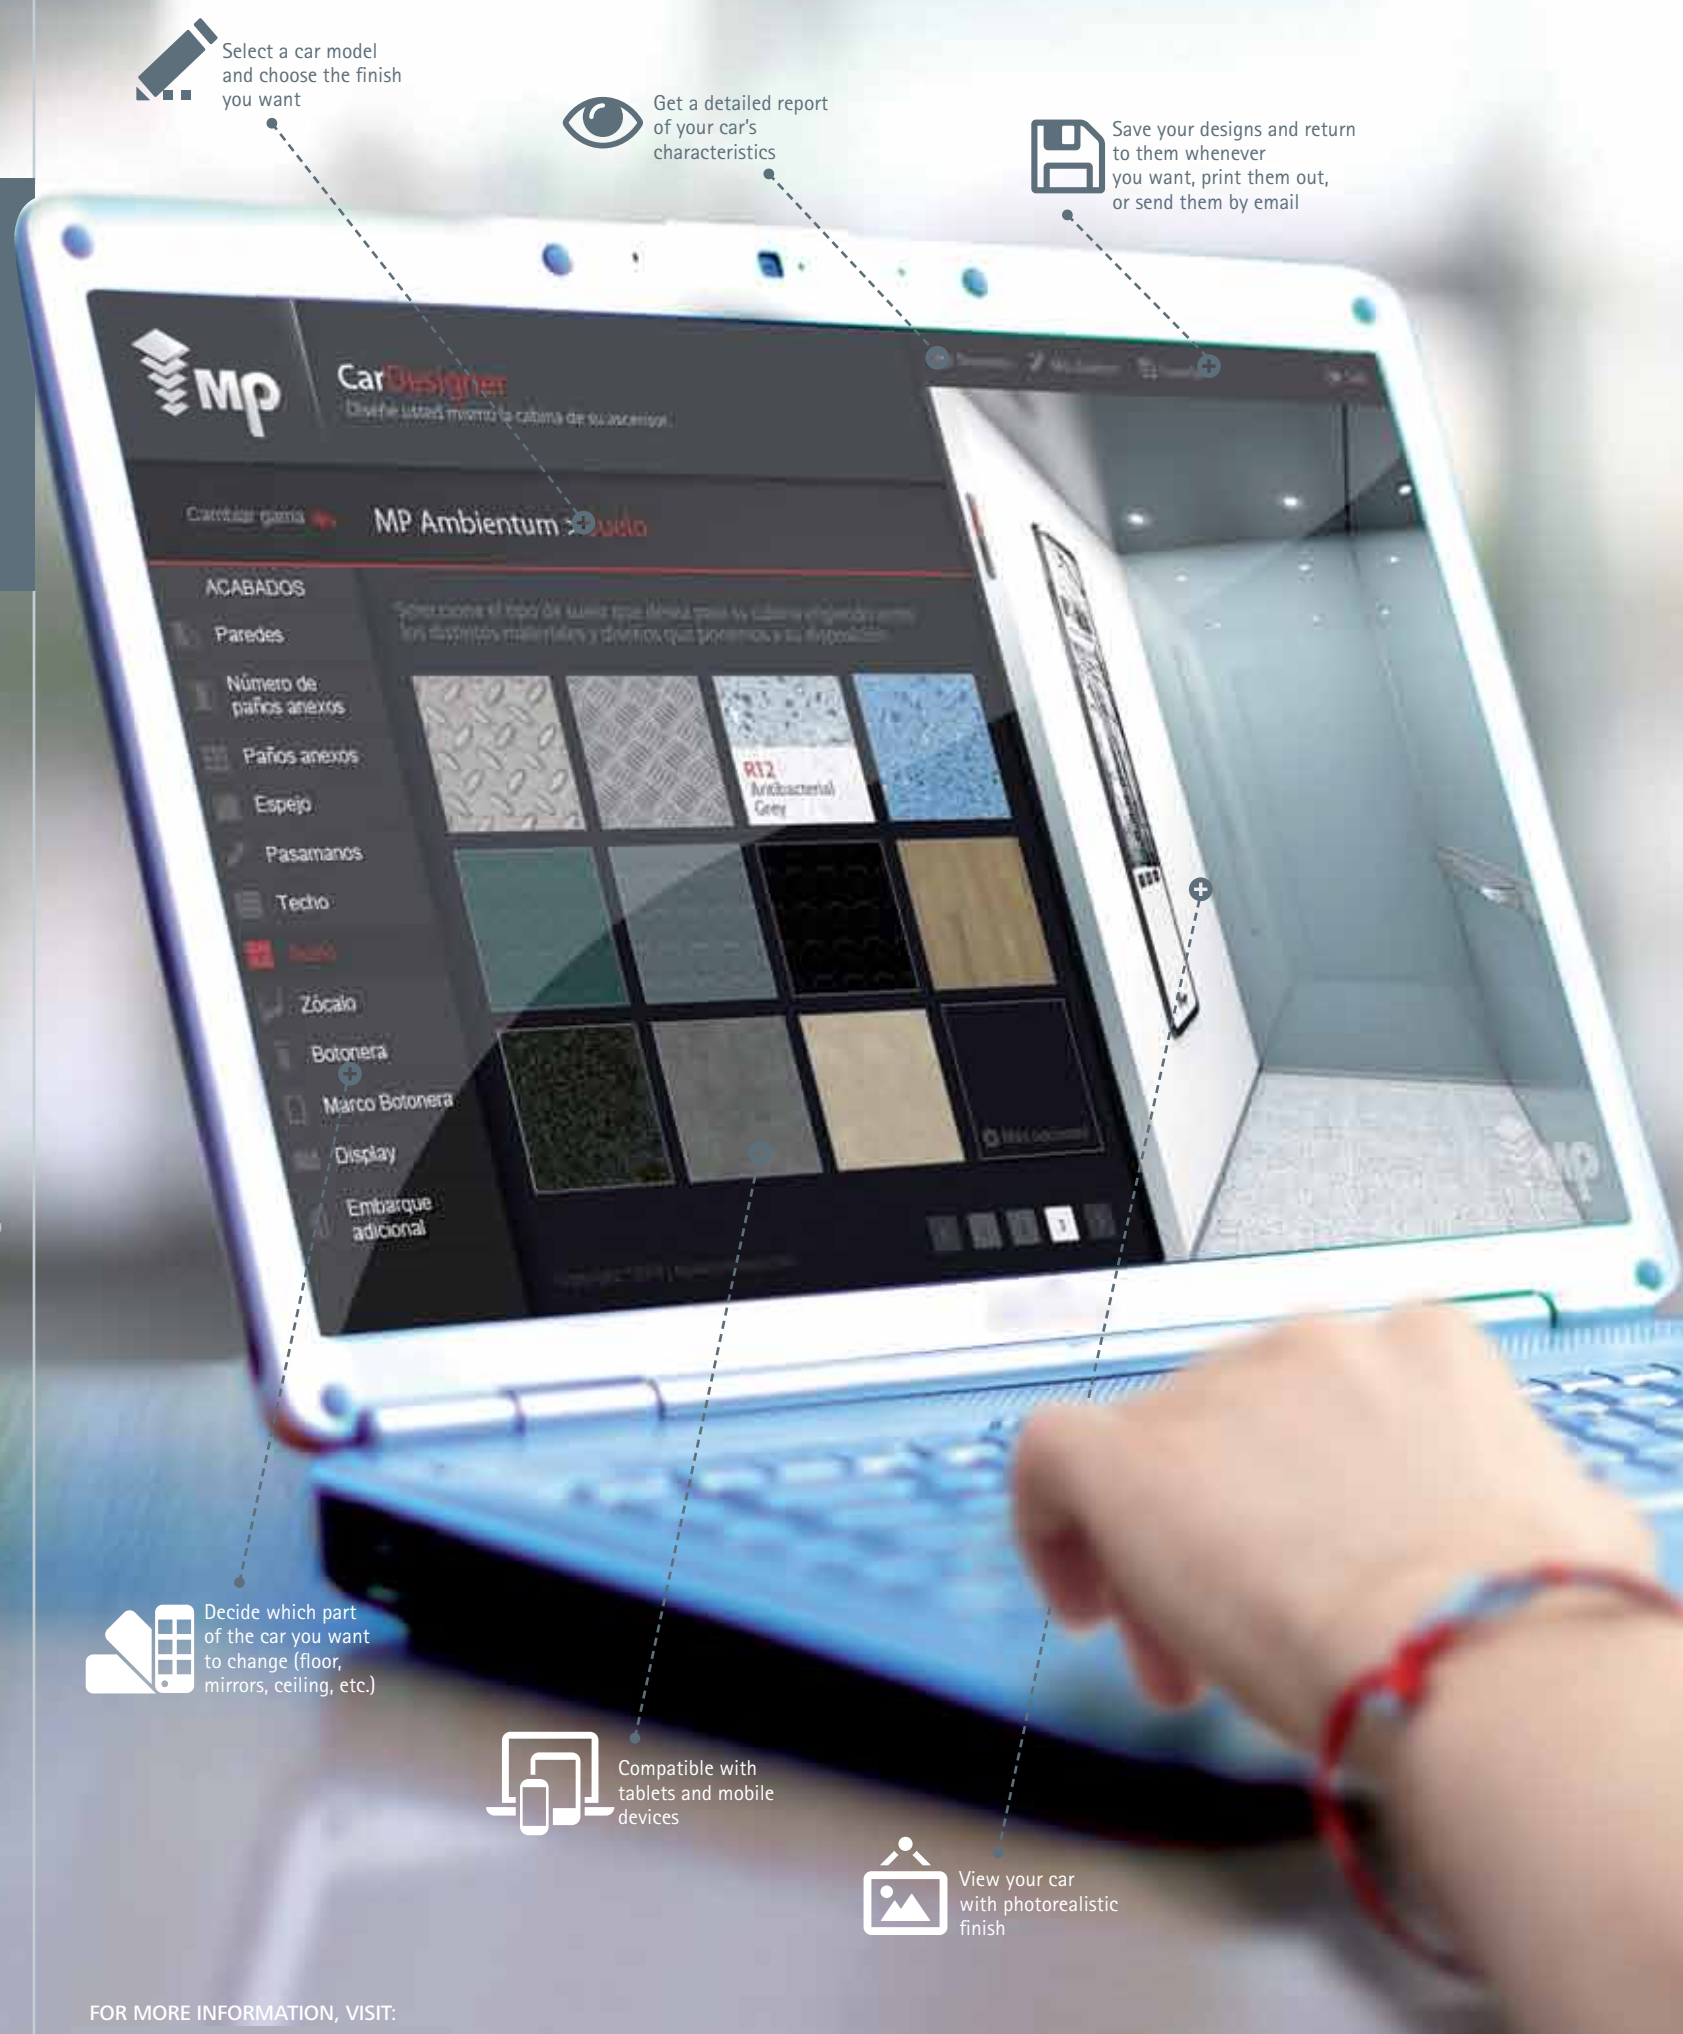

A car tailored to your needs

At MP Lifts, we want to make your life easier. That's why we provide you with all the tools necessary for the design of your car to be a perfect fit with the design of your building. No more restrictions, no more looking though lots of options and models which don't fit in with your designs.

Now all you have to do is choose a car range and then design your car. You can choose from our many finishes and combine them as you want.

The car of your imagination, within your reach

Heisplan

MP CarDesigner

You yourself design the car for your lift

We present you with a new tool with infinite possibilities

Now, configuring and viewing the car you want will be very simple.

We provide you with everything you need to design a car tailored to your needs.

The new range of MP CARevolution cars allows you to quickly and intuitively customise the various finishes available, view the configuration chosen, save, print, send by email and ask for more information on the resulting car.

An online tool which can be run on any web browser or mobile or desktop device and is optimised for use on tablets.

Wherever and whenever you want

Heisplan

Select a car model and choose the finish you want

Get a detailed report of your car's characteristics

Save your designs and return to them whenever you want, print them out, or send them by email

Decide which part of the car you want to change (floor, mirrors, ceiling, etc.)

Compatible with tablets and mobile devices

View your car with photorealistic finish

The Revolution of Ecodesign

NATURALLY tailored to all styles

-  Life-cycle assessment, applying ISO standards 14040-14044 and CML-2001 and Eco-indicator methods
-  Minimum environmental impact
-  Use of 100% recyclable material

We have used the most up-to-date ECODSIGN methods available on the market for the new MP CARevolution passenger car, right from the conceptual design phase.

For this purpose, a rigorous and detailed **life-cycle assessment** has been done, applying **ISO standards 14040-14044** (in its compulsory phase) and methods CML-2001 and Eco-indicator 99 (in its optional phases).

The result of this process is a product with **minimum environmental impact**, this being supported by the use of **materials which completely respect the environment** and are **100% recyclable**, the optimisation and simplification of manufacturing processes, the use of highly efficient lighting and signalling technology and a significant optimisation in terms of its weight, this directly bringing about a reduction in energy consumption by the lift over its service life.

Eco-efficient design tailored to your needs

Heisplan

Assembly and maintenance made easier

Countless advantages for users

FLOORING
Greater regulation during construction, meaning adaptation to any lift shaft.

Hinged **OPERATING PANEL** which can be easily accessed for maintenance work.

LED LIGHTING with a two-year guaranteed service life, meaning less maintenance work.

WALL PANELS
Optimisation of assembly times thanks to a reduction in weight and to new fixtures.

Integration with **MP ecoGO CONTROLLER**. Pre-wired and with plug, making connecting the lighting easier.

LESS NOISE inside the car thanks to vibroacoustic car wall panels.

OPTIMISATION OF THE USEFUL HEIGHT INSIDE THE CAR thanks to new lighting concepts.

LESS NOISE inside the car, meaning greater comfort.

MORE INFORMATION FOR USERS thanks to the TFT display.

OPTIMISATION OF THE CAR'S USEFUL AREA. Reduction in the thickness of walls.

I TILLEGG TIL VÅRE STANDARD LEVERANSEPRODUKTER
KAN HEISPLAN BLANT ANNET TILBY FØLGENDE:

TANNSTANGSHEISER

Heiser for spesialløsninger
Godt egnet for marinebruk og byggeplassheiser
samt på skrå montasjesteder.

KORROSJONSBESTANDIGE HEISER

Heis for anlegg som er utsatt plassert i korrosive miljøer.

EX HEIS

Heiser som er tilrettelagt for
bruk i eksplosjonsfarlige områder.

RENE ANLEGG

Heiser i områder som skal møte krav til minimale
støvansamlinger og renhet.

SKRÅBANEHEIS

Brotårn, terrasseboliger, fjellsider med
bebyggelse på en skrå bane.

IP HEIS

Anlegg som har stor motstand mot inntrenging av vann.
For våte og fuktige miljøer.

MARINEHEIS SPESIAL

Skips- og offshore-installasjoner i alle varianter og
sammenstillinger. Alle typer driftssystemer.

SMALHEIS

Heiser for eksisterende bygg, gjerne i trappeløp
og plasser hvor begrenset plass og der bygningsmessige
inngrep gir høye krav til leveransen.
(trange sjakter, og sjakter hvor lave gruver samt
lave overhøyder er nødvendig å hensynta)

BRANNMANNSHEIS

Heiser som er funksjons-sikret ved brann og godkjent for
bruk av brann og redningsvesen.
Dette for å lette transport av utstyr for slokking.
